THE TOMORROW FUND HELPS FAMILIES THROUGHOUT TREATMENT AND BEYOND

To date, over 2,000 children and their families have received financial and emotional support from The Tomorrow Fund. Behind every kid with cancer is a family that needs your help.

Dependent upon an individual's treatment protocol, cancer treatments can take several months or even years. For many families, the long battle against cancer includes the added stress of financial hardship. We provide daily financial and emotional assistance to our families in many ways.

BELOW ARE SOME OF THE MANY RESOURCES PROVIDED TO TOMORROW FUND FAMILIES

**Camp Dotty & Camp Tomorrow • College Scholarship Fund
Fertility Preservation • Survivorship Programs • Support Groups
Bereavement Groups • Funeral Fund • Clinic Financial Support**

DIRECT ASSISTANCE

Direct assistance will always be one of the most important things we do to support our families. Last year, we provided nearly \$220,000 to help keep homes warm, the lights on and assist with overdue rents and mortgages, allowing parents to focus on their child.

PAID PARKING PASSES

We provide hospital parking passes to all of our families for the duration of treatment, saving each family thousands of dollars.

DAILY STIPENDS

When children are hospitalized overnight at Hasbro Children's Hospital we provide \$15 per day to families who often use funds to purchase coffee or a meal. Last year, we provided nearly \$30,000 to families.

TRAVEL STIPEND

Some of our children require treatments not available in RI, such as bone marrow and stem cell procedures. When this occurs we provide a travel stipend of \$50 per day to defray expenses to these families. Last year, we provided just under \$25,000 to families who traveled for care.

SURVIVORS BEYOND THE CANCER...

Due to advancements in treatment, the odds of children surviving their battle has increased tremendously. Although most survivors will lead long healthy lives, they often face many challenges. The surgeries, radiation and chemotherapy treatments that beat cancer can also cause lifelong consequences to young, developing bodies.

Some of the possible “latent effects” of cancer treatment that our kids may face in their lifetime could include:

- Heart or Lung Problems
- Slowed or delayed growth in development
- Infertility Challenges
- Learning and Memory Difficulties
- Social and Psychological Setbacks
- Risk of second cancers later in life
- Hearing and/or Vision Impairment

We are proud to report that our **Survivorship Program**, created several years ago, has evolved and grown to meet the needs of Tomorrow Fund Survivors and offers continued financial and emotional support.

“ When I thought I would never see the light at the end of the tunnel, The Tomorrow Fund lit the entire tunnel for me. ”

CHILDHOOD CANCER AWARENESS CEREMONY

September is Childhood Cancer Awareness Month. We emphasize the importance of supporting these families that need additional assistance beyond medical care to cope with the many challenges and harsh realities that accompany this traumatic disease. In recognition of childhood cancer awareness, each September the Rhode Island State House Dome is lit in the color gold for one week. In addition, The Tomorrow Fund sponsors a special ceremony to honor all of our courageous patients. On September 20, 2022 the 23rd Annual Tomorrow Fund Awareness Reception was held at the Rhode Island State House. Governor Daniel McKee presented 41 children with Ambassador Medals and Citations.

DINO GERMANI SCHOLARSHIP RECIPIENTS

Each year, Tomorrow Fund kids planning to attend college are invited to apply for Scholarships to relieve some of the financial burden associated with the cost of college. This year 10 Dino Germani Scholarships were awarded to Tomorrow Fund kids. To date, 183 scholarships have been awarded. We wish all of our scholarship applicants and recipients best wishes for continued success throughout their college careers and beyond!

The 2022 Dino Germani Scholarship recipients (from left) are Gianna Colao, Alayna Gallant, Sydney Khoury, Andrew Silva & Alexander Jedson (not pictured) Olivia Cataldi, Armani Edwards, Kevin Ricci, Jr., David Stamp & Caitlynn Zinni.

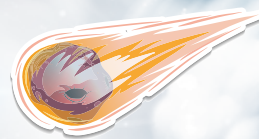

CAMP DOTTY SUPER MARS KIDS

Camp Dotty, a day camp for 4-7 year old children battling cancer, along with their siblings, was created to provide a camp experience for young children while recognizing their individual needs as they deal with cancer.

It was an exciting week of learning, fun and creativity at Camp Dotty with an Outer Space theme. The first day the kids showed their creative side by decorating cupcakes and learning how to play the drums. On the second day the Mad Science Lab taught them about gravity and motion. They also learned new dance moves from Carolyn Dutra Dance Studio. On the third day the kids enjoyed yoga, which taught them how to use their bodies to control their emotions and minds. On the last day of camp the kids showcased all their talents in front of their parents and counselors. Congrats to our Camp Dotty Graduates!
